**The joint project of the Don State Technical University and the Russian Academy of Education
'Organization of psychological and pedagogical support of the educational process for university students being in special living conditions'**

Abstract: The report is a presentation of the first results of the joint project of DSTU and the Russian Academy of Education "Organization of psychological and pedagogical support of the educational process of university students in special living conditions." The project is implemented by the Department of Social and Sports Pedagogical Technologies of the Faculty of Psychology, Pedagogy and Defectology of DSTU on the initiative and with the personal participation of the Rector of DSTU, Doctor of Technical Sciences, corresponding member of RAO B.Ch. Meskhi in accordance with the Activity Plan of the Regional Scientific Center of the Russian Academy of Education of DSTU. The center has been operating since 2017, implements fundamental and exploratory scientific projects, conducts research in the field of pedagogy and psychology. The main university of the Rostov region, the Don State Technical University, is now becoming a center for the scientific development of psychological and pedagogical technologies for accompanying students in special living conditions.

By order of the rector dated 05/31/2024 No. 605-A, the "Roadmap" of the project was approved, the main purpose of which is to organize a set of measures for psychological and pedagogical support for the following categories of applicants and students of DSTU: persons from among orphans and children left without parental care; persons with disabilities; students who arrived for training from new Russian territories; young people who took part in a special military operation; children of dead or wounded participants in a special military operation; other students who find themselves in a difficult life situation. The objectives of the project include the formation of socially significant personality qualities necessary to overcome conflicts and difficult life situations; support and stimulate the motivation of students to study at DSTU; popularization among applicants and students of various forms of creativity, the development of interest in learning and research.
